

Exercise 4b: Task Analysis & User Flow

Online Shopping App – Wireframes using Dia

Name: Tanisha.S

Register No: 240701553

Tool: Dia Diagram Editor

Date: 31 March 2026

AIM

The aim is to perform task analysis for an online shopping app, document user flows, and create corresponding wireframes using Dia Diagram Editor.

TOOL

Dia Diagram Editor – <http://dia-installer.de/>

PROCEDURE

Step 1: Install Dia

1. Download Dia from the official website: <http://dia-installer.de/>
2. Install Dia on your computer.
3. Launch the Dia application.

Step 2: Create New Diagram

1. Go to File → New Diagram.
2. Select Flowchart as the diagram type.

Step 3: Add Shapes

Use the shape tools (rectangles, ellipses, etc.) to create wireframes for each screen:

- Home Page – Rectangle
- Product Categories – Rectangle
- Product Listings – Rectangle
- Product Details – Rectangle
- Cart – Rectangle
- Checkout – Rectangle
- Order Confirmation – Rectangle
- Order History – Rectangle

Step 4: Connect Shapes

Use the line tool to connect shapes, representing the user flows:

Home Page → Product Categories → Product Listings → Product Details → Cart → Checkout → Order Confirmation → Order History

From	To
Home Page	→ Product Categories
Product Categories	→ Product Listings
Product Listings	→ Product Details
Product Details	→ Cart
Cart	→ Checkout
Checkout	→ Order Confirmation
Order Confirmation	→ Order History

Step 5: Label Shapes

Double-click on each shape to add labels:

- "Home Page" – Landing screen with categories and featured products
- "Categories" – Browse by product type
- "Product Listings" – Grid/list of products with filters
- "Product Details" – Individual product view with Add to Cart
- "Cart" – Review selected items
- "Checkout" – Enter shipping and payment info
- "Order Confirmation" – Summary of placed order
- "Order History" – Track and view past orders

Step 6: Save the Diagram

1. Go to File → Save As.
2. Save the diagram with a meaningful name, such as "Online Shopping App User Flows".

USER FLOW DOCUMENTATION

1. Browsing Products

1. Home Screen: User lands on the home page with product categories.
2. Product Categories: User taps on a category to view products.
3. Product List: User scrolls through the product list.
4. Product Details: User taps on a specific product to see details.
Home Screen → Product Categories → Product List → Product Details

2. Searching for a Specific Product

1. Search: User taps the search bar or icon.
2. Enter Query: User types the product name or keyword.
3. Search Results: User reviews matching items.
4. Product Details: User taps on a specific product to see details.

Search → Enter Query → Search Results → Product Details

3. Adding a Product to the Cart

1. View Products: User browses or searches for a product.
2. Product Details: User taps on the product to see more info.
3. Add to Cart: User clicks “Add to Cart”.

View Products → Product Details → Add to Cart

4. Checking Out

1. Open Cart: User taps on the cart icon.
2. Review Cart: User checks all products.
3. Proceed to Checkout: User clicks “Checkout”.
4. Enter Shipping Info: User provides shipping details.
5. Enter Payment Info: User provides payment details.
6. Place Order: User clicks “Place Order”.

Open Cart → Review Cart → Proceed to Checkout → Enter Shipping Info → Enter Payment Info → Place Order

User Flow Wireframe Diagram – Online Shopping App (Dia)
